## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 2, 4-8, and 10-15 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Claim 1 states the limitation "at least one of a radiator, a connection terminal, a cover and a circuit component selected from the group consisting of a semiconductor element, a condenser, an inductor and a resistor, connected to the conductor layer through a joining member comprising a brazing material". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by, the prior art. Claim 7 states the limitation "which comprises a ceramic particle having an average particle size of 100 nm or less selected from the group consisting of oxides of alkali metals and alkaline earth metals,  $\text{Al}_2\text{O}_3$ ,  $\text{TiO}_2$ ,  $\text{CeO}_2$ , and mullite". This limitation, in conjunction with the other claimed features, was neither found to be disclosed in, nor suggested by, the prior art.

### ***Drawings***

The drawings are objected to because since only a single view is used in the application to illustrate the claimed invention, it must not be numbered and the abbreviation "FIG." must not appear (see 37 CFR 1.84(u)(1)). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing

Art Unit: 2841

should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Conclusion***

This application is in condition for allowance except for the formal matters described above with respect to the drawings.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
